Risk Assessment Form (3)

Must be completed before experimentation.

Student's Name(s) Maansi Shroff

Title of Project An Investigation of the Ideal Reaction Conditions for Carbon Dioxide Absorption using Amino Acid Salt Solutions

To be completed by the Student Researcher(s) in collaboration with Designated Supervisor/Qualified Scientist:
(All questions must be answered; additional page(s) may be attached.)

1. List all hazardous chemicals, activities, or devices that will be used; identify microorganisms exempt from pre-approval (see Potentially Hazardous Biological Agent rules).

   Not applicable.

2. Identify and assess the risks involved in this project.

   Not applicable.

3. Describe the safety precautions and procedures that will be used to reduce the risks.

   Not applicable.

4. Describe the disposal procedures that will be used (when applicable).

   Not applicable.

5. List the source(s) of safety information.

   Not applicable.

* I signed this since I was the one who originally approved this as a Science Project.

To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):
I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan/Project Summary and will provide direct supervision.
