

Risk Assessment Form (3)

Must be completed before experimentation.

Student's Name(s) Rithika Narayan

Title of Project Coral Grief: Machine Learning on Crowd-sourced Data to Highlight an Ecological Crisis

To be completed by the Student Researcher(s) in collaboration with Designated Supervisor/Qualified Scientist:
(All questions must be answered; additional page(s) may be attached.)

1. List all hazardous chemicals, activities, or devices that will be used; identify microorganisms exempt from pre-approval (see Potentially Hazardous Biological Agent rules).
Not applicable
2. Identify and assess the risks involved in this project.
The project uses images of corals from public repositories. There are no known risks associated with this project.
3. Describe the safety precautions and procedures that will be used to reduce the risks.
Not applicable
4. Describe the disposal procedures that will be used (when applicable).
Not applicable
5. List the source(s) of safety information.
Not applicable

To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan/Project Summary and will provide direct supervision.

Anthony Pellicano

Designated Supervisor's Printed Name

Anthony Pellicano
Signature

06/20/19

Date of Review (mm/dd/yy)

Research Associate, Angion Biomedica Corp.

Position & Institution

516 326 1200 or apellicano@angion.com

Phone or email contact information

12 yrs experience with analysis of big data and 1 yr experience in use of Machine Learning for predictive modeling.

Experience/Training as relates to the student's area of research
