

Regulated Research Institutional/Industrial Setting Form (1C) Continued

Student's Name(s) Jeannie Ren

4. Detail the student's role in conducting the research (e.g. data collection, specific procedures performed). Differentiate what the student observed and what the student actually did.

Jeannie is an experienced machine learning researcher and executed the research. She collected the dataset and wrote the code to process the images prior to training. She helped label the dataset and ran the training and testing processes.

5. Did the student(s) work on the project as part of a group?
If yes, how many individuals were in the group and who were they (e.g. high school students, graduate students, faculty, professional researchers)?

☐ Yes ☒ No

I attest that the student has conducted the work as indicated above and that any required review and approval by institutional regulatory board (IRB/IACUC/IBC) has been obtained. Copies are attached if applicable.
I further acknowledge that the student will be presenting this work publicly in competition and I have communicated with the student research regarding any requirements for my review and/or restrictions of what is publicized.
