

# Regulated Research Institutional/Industrial Setting Form (1C)

This form must be completed AFTER experimentation by the adult supervising the student research conducted in a regulated research institution, industrial setting or any work site other than home, school or field.

Student's Name(s) Emma Yang

Title of Project

GADDNET: A Platform for Connecting Researchers via the Genes and Diseases They Studied and Will Study

## To be completed by the Supervising Adult in the Setting (NOT the Student(s)) after experimentation:

(Responses must be on the form as it is required to be displayed at student's project booth; please do not print double-sided.)

The student(s) conducted research at my work site:

1. Did you or your proxy (e.g. graduate student, postdoc, employee) mentor or provide substantial guidance to the student researcher?

☒ Yes

☐ No

- a. If no, describe your and/or your institution's role with the student researcher and his/her project (e.g. supervised use of equipment on site without ongoing mentorship and sign below.

- b. If yes, complete questions 2 –5.

2. Is the student's research project a subset of your ongoing research or work?

☒ Yes

☐ No

Use questions 3, 4 and 5 to detail how the student's project was similar and/or different from ongoing research or work at your site.

3. Describe the independence and creativity with which the student:

- a. developed the hypotheses or engineering goals for the research project

The student expanded ideas and implemented the code.

- b. designed the methodology for his/her research project

The student expanded the initial design.

- c. analyzed and interpreted data

The student developed case studies.

(Continued on next page)

## Regulated Research Institutional/Industrial Setting Form (1C) Continued

Student's Name(s) Emma Yang

4. Detail the student's role in conducting the research (e.g. data collection, specific procedures performed). Differentiate what the student observed and what the student actually did.

The student designed the interface, implemented all code, learned about the subject area, developed use cases, wrote the draft, and contributed ideas.

5. Did the student(s) work on the project as part of a group?  
If yes, how many individuals were in the group and who were they (e.g. high school students, graduate students, faculty, professional researchers)?

☐ Yes

☒ No

I attest that the student has conducted the work as indicated above and that any required review and approval by institutional regulatory board (IRB/IACUC/IBC) has been obtained. Copies are attached if applicable.  
I further acknowledge that the student will be presenting this work publicly in competition and I have communicated with the student research regarding any requirements for my review and/or restrictions of what is publicized.

Avi Ma'ayan

Supervising Adult's Printed Name

Icahn School of Medicine at Mount Sinai

Institution

One Gustave L. Levy Place, New York, NY 10029

Address

Signature

Professor
