

Vertebrate Animal Form (5B)

Required for all research involving vertebrate animals that is conducted in at a Regulated Research Institution.
(IACUC approval required before experimentation. Form must be completed and signed after experimentation.)

Student's Name(s) Josephine Robb

Title of Project The AVP-subpopulations involved in infant-directed aggression

Title and Protocol Number of IACUC Approved Project _____

To be completed by Qualified Scientist or Principal Investigator:

1. Species of animals used: Mus Musculus Number of animals used: 12

2. Describe, in detail, the role of the student in this project: animal procedures and related equipment that were involved, oversight provided and safety precautions employed. (Attach extra pages if necessary.)

The student did not have any role in the behavior Assays nor the tissue collection.

3. Was there any weight loss or death of any animal? If yes, attach a letter obtained from the qualified scientist, designated supervisor or a veterinarian documenting the situation and the results of the investigation.

No

4. Did the student's project also involve the use of tissues?

☐ No

☒ Yes; complete Forms 6A and 6B

5. What laboratory training, including dates, was provided to the student?

*The student was trained in in situ hybridization (detection of mRNA).
This occurred the week of the 6/24/2019.*

6. Attach a copy of the Regulated Research Institution IACUC Approval. A letter from the Qualified Scientist or Principal Investigator is not sufficient.

Qualified Scientist/Principal Investigator
