

MEGAN GORE

Rules Wizard

SUMMARY

These documents require Adobe® Acrobat Reader, [which is a free download from the Adobe® website.](#)

The answers you gave to questions on the previous pages of the Rules Wizard indicate that you need to download the following forms in order to adhere to the International Rules:

These three forms are required for **all** participants:

- [Checklist for Adult Sponsor \(1\)](#)
- [Student Checklist \(1A\) and Research Plan](#)
- [Approval Form \(1B\)](#)
- [Official Abstract Form \(87 kb\)](#)-- Some fairs may require the use of the ISEF Official Abstract Form; others may have their own required format. Please contact your regional fair for more information. **Note:** ISEF finalists do **not** fill out this abstract form - they have to fill out their abstract on-line. Please read the instructions for completion thoroughly.
- [Continuation Projects Form \(7\) \(24 kb\)](#)-- This form must be completed by the student, if the project is a continuation from your previous research project. For ISEF you will also be required to provide copies of the paperwork from your previous research. The judges and the Scientific Review Committee use your Continuation Projects Form (7) and your previous paperwork to determine what new research has been done.
- [Regulated Research Institutional/Industrial Setting Form \(1C\) \(28 kb\)](#)-- This form must be completed by the scientist supervising the student research conducted in a regulated research institution (e.g., university lab, medical center, NIH, SSTP, etc.) or industrial setting. A Research Institution Approval form may need to be supplied by the research site (i.e. IRB/IACUC/IBC).
- [Human Participants Form \(4\) \(64 kb\)](#)-- IRB Form for approval before experimentation. Required for all research involving humans.
- [Informed Consent Sample \(4\) \(64 kb\)](#)-- Required for all participants under 18 years of age (see exceptions); required for all projects involving risk; and recommended for all projects involving human participants. From the responses pertaining to the use of human participants, it appears that informed consent will be required from your participants. Please complete the Human Informed Consent Form or a similar document and have an IRB review and make a final determination regarding this requirement.

- You indicated you will be using a survey as part of your experiment. Please provide a copy of the survey to the IRB for their review as well as a copy to all participants and/or parents if parental permission is required.

THESE FORMS ARE NOT TO BE ELECTRONICALLY TRANSFERRED TO Society for Science & The Public. THE FORMS MUST BE COMPLETED BY THE APPROPRIATE INDIVIDUALS, SIGNED AND COPIES SUBMITTED TO your science fair for local, regional or state competition.

Society for Science & the Public

Society for Science & the Public (Society) is a champion for science, dedicated to expanding scientific literacy, effective STEM education and scientific research. We are a nonprofit 501(c)(3) membership organization focused on promoting the understanding and appreciation of science and the vital role it plays in human advancement: to inform, educate, and inspire.

Since 1921, the Society (formerly known as Science Service) has conveyed the excitement of science and research directly to the public through our award-winning publications and world-class science education competitions.
