Dear Jalaj,

On page 6 of the LISEF Rules and Guidelines it lists the criteria for participation in LISEF:

- Each student may enter only one project that covers research done over a maximum of 12 continuous months between January 2019 and May 2020.
- Student must be enrolled in Grade 9 – 12 and less than 20 years of age on 1/1/2020.
- All students (including all members of a team) must be affiliated with a Nassau or Suffolk County educational institution (a home schooled individual/team should follow the instructions contained in this document). Team members may be enrolled in different Nassau/Suffolk schools.

Since your team member attends a school in Holliswood, NY which is in Queens you are not eligible to participate in LISEF. It is my understanding that the NYC Science and Engineering Fair will not allow a split team of this type to participate in their fair either. You are going to have to reach out to them to see if this is in fact the case. All is not lost, if you are not eligible to participate in the NYC Fair either you ARE eligible to participate in the New York State Science and Engineering Fair (NYSSEF).

I wish you and your team mate good luck at NYSSEF.

Mrs. Lukaszewski

LISEF President
