Rules Wizard

SUMMARY

These documents require Adobe® Acrobat Reader, [which is a free download from the Adobe® website.](#)

The answers you gave to questions on the previous pages of the Rules Wizard indicate that you need to download the following forms in order to adhere to the International Rules:

These three forms are required for all participants:

- [Checklist for Adult Sponsor \(1\)](#)
- [Student Checklist \(1A\) and Research Plan](#)
- [Approval Form \(1B\)](#)
- [Official Abstract Form \(87 kb\)](#) -- Some fairs may require the use of the ISEF Official Abstract Form; others may have their own required format. Please contact your regional fair for more information. **Note:** ISEF finalists do **not** fill out this abstract form - they have to fill out their abstract on-line. Please read the instructions for completion thoroughly.
- **WARNING: You indicated that your experiment is located at home or at school and that it includes microorganisms, rDNA, or human or animal tissue. The International Rules state that experiments involving potentially hazardous biological agents ARE PROHIBITED in a home environment. A risk assessment must be conducted prior to experimentation to determine the appropriate level of biosafety containment. This assessment will affect whether the research may be done in the school laboratory or whether it must be conducted in a regulated research institution. Please see the International Rules for a complete explanation.**
- [Qualified Scientist Form \(2\) \(41 kb\)](#) -- May be required for research involving human subjects, vertebrate animals, potentially hazardous biological agents and DEA-controlled substances. Must be completed and signed before the start of student experimentation
- [Risk Assessment Form \(3\) \(16 kb\)](#) -- Required for projects using hazardous chemicals, activities, or devices or DEA-controlled substances.
- [Potentially Hazardous Biological Agents Form \(6A\) \(30 kb\)](#) Required for research involving microorganisms, rDNA, fresh/frozen tissue (including primary cell lines, human and other primate established cell lines and tissue cultures), blood, blood products and body fluids.

THESE FORMS ARE NOT TO BE ELECTRONICALLY TRANSFERRED TO Society for Science & The Public. THE FORMS MUST BE COMPLETED BY THE
