

## Risk Assessment Form (3)

Must be completed before experimentation.

Student's Name(s) Shourav Saha

Title of Project The Role of YY1 in the Modulation of the Podocyte Molecular Phenotype in High Glucose Milieu

**To be completed by the Student Researcher(s) in collaboration with Designated Supervisor/Qualified Scientist:**  
(All questions must be answered; additional page(s) may be attached.)

1. List all hazardous chemicals, activities, or devices that will be used; identify microorganisms exempt from pre-approval (see Potentially Hazardous Biological Agent rules).

**SEE ATTACHED**

2. Identify and assess the risks involved in this project.

3. Describe the safety precautions and procedures that will be used to reduce the risks.

4. Describe the disposal procedures that will be used (when applicable).

5. List the source(s) of safety information.

**To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):**

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan/Project Summary and will provide direct supervision.

ALOK JHA  
Designated Supervisor's Printed Name

AJHA  
Signature

07/01/2019  
Date of Review (mm/dd/yy)

Post-Doctorate Researcher, Feinstein Institute for Medical Research

Ajha1@northwell.edu

Position & Institution

Phone or email contact information

Trained in bioinformatics and molecular dynamics procedures, and cell/molecular biology procedures relevant to the study

Experience/Training as relates to the student's area of research
