

Risk Assessment Form (3)

Must be completed before experimentation.

Student's Name(s) Michael Chacon, Defne Aktuna

Title of Project Aversive Conditioning and Scent Discrimination in the Green Crab (Carcinus maenas)

To be completed by the Student Researcher(s) in collaboration with Designated Supervisor/Qualified Scientist:
(All questions must be answered; additional page(s) may be attached.)

1. List all hazardous chemicals, activities, or devices that will be used; identify microorganisms exempt from pre-approval (see Potentially Hazardous Biological Agent rules).
Green Crabs (Carcinus maenas)
2. Identify and assess the risks involved in this project.
Handling and moving the Green Crabs
3. Describe the safety precautions and procedures that will be used to reduce the risks.
Gloves and small nets will be used when the Crab has to be handled
4. Describe the disposal procedures that will be used (when applicable).
N/A
5. List the source(s) of safety information.
N/A

To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan/Project Summary and will provide direct supervision.
