

### Risk Assessment Form (3)

Must be completed before experimentation.

Student's Name(s) Alice Z. Chen

Title of Project Longitudinal MRI-based Radiomics: Estimating Rectal Cancer Response to Chemoradiation

**To be completed by the Student Researcher(s) in collaboration with Designated Supervisor/Qualified Scientist:**  
(All questions must be answered; additional page(s) may be attached.)

1. List all hazardous chemicals, activities, or devices that will be used; identify microorganisms exempt from pre-approval (see Potentially Hazardous Biological Agent rules).

No hazardous materials were used.

2. Identify and assess the risks involved in this project.

Due to the computational nature of this project, there were no risks.

3. Describe the safety precautions and procedures that will be used to reduce the risks.

Due to the computational nature of this project, none were necessary.

4. Describe the disposal procedures that will be used (when applicable).

Due to the computational nature of this project, none were necessary.

5. List the source(s) of safety information.

Due to the computational nature of this project, none were necessary.

**To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):**

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan/Project Summary and will provide direct supervision.

Peng Hu

Designated Supervisor's Printed Name

Signature

8/5/19

Date of Review (mm/dd/yy)

Associate Professor / University of California, Los Angeles

Position & Institution

(310) 267-6838 / penghu@mednet.ucla.edu
