

Risk Assessment Form (3)
Must be completed before experimentation.

Student's Name(s) Hugo Amador

Title of Project Laminin and Sildenafil Citrate Stimulates Neurite Outgrowth on PC12 cells

To be completed by the Student Researcher(s) in collaboration with Designated Supervisor/Qualified Scientist: (All questions must be answered; additional page(s) may be attached.)

1. List all hazardous chemicals, activities, or devices that will be used; identify microorganisms exempt from pre-approval (see Potentially Hazardous Biological Agent rules).

None.

2. Identify and assess the risks involved in this project.

None.

3. Describe the safety precautions and procedures that will be used to reduce the risks.

Glove wear and hood use for chemicals

4. Describe the disposal procedures that will be used (when applicable).

autoclaving.

5. List the source(s) of safety information.

To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan/Project Summary and will provide direct supervision.
