Potentially Hazardous Biological Agents Risk Assessment Form (6A)
Required for research involving microorganisms, rDNA, fresh/frozen tissue (including primary cell lines, human and other primate established cell lines and tissue cultures), blood, blood products and body fluids. SRC/IACUC/IBC approval required before experimentation.

Sarah Moran

Student's Name(s)

Title	Antiviral Capabilities of DABCO-hydrocarbon Molecules
To be completed by the QUALIFIED SCIENTIST/DESIGNATED SUPERVISOR in collaboration with the student researcher(s). All questions are applicable and must be answered; additional page(s) may be attached.	
1. ld	N 1: PROJECT ASSESSMENT  ntify potentially hazardous biological agents to be used in this experiment. Include the source, quantity and the biosafety level risk up of each microorganism.  Include the source, quantity and the biosafety level risk includes the source of
	scribe the site of experimentation including the level of biological containment.  boratory benchtop
	scribe the procedures that will be used to minimize risk (personal protective equipment, hood type, etc.).  Oves, lab coat, goggles
4. V	at final biosafety level do you recommend for this project given the risk assessment you conducted? BSL-1
	scribe the method of disposal of all cultured materials and other potentially hazardous biological agents. <b>Itoclave</b>
1. W	ON 2: TRAINING at training will the student receive for this project? crobiology safety, maintenance and culture protocols
2. E	perience/training of Designated Supervisor as it relates to the student's area of research (if applicable).  Years experience with microbiology and cell biology techniques
DES	
	not require pre-approval for this type of study. The SRC has reviewed that the student received appropriate training and the project complies with ISEF rules.
1	FICATION - To be SIGNED by the QUALIFIED SCIENTIST or DESIGNATED SUPERVISOR
abov	S/DS has seen this project's research plan and supporting documentation and acknowledges the accuracy of the information provided This study has been approved as a (check one) BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.  **Note: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study, and will be conducted in an appropriate laboratory.**  **Description: The information provided BSL-1/ BSL-2 study and BSL-1/ BS
